ABOUT US

OGUZHAN PLASTICS AND MOULDING INDUSTRY LTD CO. was founded under the leadership of Semih Güngör in 1993 based on the information of its founders on plastic mould manufacturing and technology at a level of expertise. It provided service to its domestic and foreign customers by manufacturing high quality and superior plastic moulds until year 1996.

The company also established the plastic injection department in 1996 to fulfill the manufacturing program it targeted. Since this date, a fastidious work was carried out in the molding, plastic and assembly departments in order to be able to produce models in world standards in the field of leaning devices.

The company conducts the design of the products manufactured by it and protects them by certificates of registration, by industrial design registry certificates. It continues to present its products to its customers under the brand name VIALLI belonging Oguzhan Plastik ve Kalıp San.

HAKKIMIZDA

OĞUZHAN PLASTİK KALIP SANAYİİ, kurucularının plastik kalıp imalatı ve teknolojisi hakkında uzmanlık derecesindeki bilgilerine dayanılarak 1993 yılında Semih Güngör öncülüğünde kurulmuştur. 1996 yılına kadar yurt içi ve yurt dışındaki müşterilerine kaliteli ve üstün nitelikli plastik kalıplar üreterek hizmet etmiştir.

Firma 1996 yılında hedeflediği imalat programına yönelerek plastik enjeksiyon bölümünü de oluşturmuştur. Bu tarihten itibaren plastikten üretilen temizlik gereçleri alanında dünya standartlarında mamüller üretmek için kalıphane, plastikhane ve montaj bölümlerinde titiz bir çalışmaya yönelmiştir.

Üretimdeki mamüllerin tasarımlarını firma kendi bünyesinde yapmakta ve endüstriyel tasarım tescil belgeleriyle korumaya almaktadır. Halen ürünlerini Oğuzhan Plastik ve Kalıp San. Ltd. Şti ait olan VIALLI markasıyla müşterilerine sunmaktadır.

FIRST & UNIQUE IN THE WORLD EASY-CLEAN PUMP SYSTEM

A high quality soap dispenser has been designed for during 4-5 service years without any problem. Nevertheless, the soap quality is as much as important like dispenser quality. Sometimes, in the liquid soap, there could be some unknown hard materials which can be blocked up the pump system of the soap dispenser. So, this situation cause the leakage accordingly. Because of our product with unique patented easy-clean system in the world, cleaning the unknown materials which cause the leakage, your dispenser will be at your service all times with its performance like the first using date.

Patent Nr : 2009-09868
Design Nr: 2010-01286

DÜNYA'DA İLK VE TEK TEMİZLENEBİLİR POMPA SİSTEMİ

Kaliteli bir sıvı sabun dispenseri 4-5 yıl boyunca sorunsuz hizmet etmek üzere dizayn edilmiştir. Ancak dispenserinizin kalitesi kadar kullanılan sıvı sabunun kalitesi de önemlidir. Bazen kullanılan sıvı sabunun içinde istenmeyen katı yabancı maddeler olabilmekte, bu maddeler sabun dispenserinizin pompa sistemine girerek sızıntı yapmasına sebep olmaktadır. Dünyada ilk ve tek patentli temizlenebilir pompa sistemli ürünümüz sayesinde, artık sızıntıya sebep olan yabancı maddeler kolayca temizlenerek dispenseriniz ilk günkü performansı ile çalışmasına devam edecektir.

For cleaning please press on the latch of the lock and take out the inner tank.

Temizlemek için kilit mandalına basarak iç hazneyi yukarıya doğru çıkarınız.

Please open the lower part of the plug turning counter clockwise.

Alt tapayı saat yönünün tersine çevirerek açınız.

Replace the plug turning it clockwise after cleaning it.

Temizledikten sonra saat yönünde çevirerek tapayı yerine takınız.
